

How to Host a Screening

What is a Screening?

A screening is a way to share information about the water crisis and charity: water through video. You can host a screening as its own event or as part of a fundraising campaign. You can host one in your home or at school (with your teachers permission).

THE JURNEY

The Journey is an 8-part mini series, following charity: water staff member Tyler Riewer as he explores Ethiopia and charity: water's work with the Relief Society of Tigray (REST). You can share all 8 episodes (about 45 minutes in total) or choose a few of your favorite episodes:

EPISODE 1

And So
It Begins

EPISODE 2

Seven Things
To Know About
Ethiopia

EPISODE 3

Life Without
Clean Water

EPISODE 4

Meet Our
Partners

EPISODE 5

Water
Changes
Everything

EPISODE 6

From
Dynamite to
Drilling Rigs

EPISODE 7

Dispatch To
The Rescue

EPISODE 8

A Few
Takeaways

www.charitywater.org/journey

Episode 1

And So It Begins

Meet Tyler. He's a Content Strategist at charity: water and your host for The Journey. He'll explain (almost) everything.

Episode 2

Seven Things to Know About Ethiopia

Before we get too far into our trip to Ethiopia, there are a few things you need to know. Here are some tips to kick off the adventure.

Episode 3

Life Without Clean Water

Tarik Haftay is one of many young girls who puts in hours each day walking to collect dirty water for her family. Spend a day walking in her shoes.

Episode 4

Meet Our Partners

Our local partner in Tigray began as a grassroots organization.
Now they're the largest operating local charity in the region.
They've helped us implement more than 3,000 water projects, and
they're incredible.

Episode 5

Water Changes Everything

Having access to clean water saves women in Ethiopia hours each day. Find out how families in May Umeri Village are using all of their extra time after getting a well.

Episode 6

From Dynamite to Drilling Rigs

Sometimes building a well requires huge machines. Sometimes it involves explosives. Here's a behind the scenes look at how our local partners find and deliver clean water.

Episode 7

Dispatch to the Rescue

We're not just funding new water projects; we're also training teams of local mechanics who can respond when wells break. These Dispatch teams keep the water flowing at charity: water projects in Tigray.

Episode 8

A Few Takeaways

As The Journey comes to an end, we take a look back at some of the things we learned along the way. This isn't a good-bye; it's a see you next time!

Tips and Tricks

1

Choose a comfortable setting where your friends and family can sit back, relax and learn!

2

Have you ever watched a movie without popcorn? I wouldn't recommend it. So don't forget about snacks!

3

Tell your audience what you liked most about The Journey and why you want to share it with them.

4

Provide facts about the water crisis and let your guests know where they can learn more.

5

If you're hosting it as part of your fundraising campaign, make sure everyone know where they can contribute.

For Ages 12+

The Spring Film

You can also host a screening of The Spring Film. This is a 20 minute film about the history of charity: water, showing our founder, Scott Harrison, on his journey from New York City night club promoter to leader in the non-profit sector.

www.charitywater.org/thefilm

The background is a solid blue color. It is decorated with various white hand-drawn style icons: water droplets of different sizes and plus signs scattered across the page. A white, irregular, torn-paper-like line is positioned below the main heading.
